No. They decided to stop work themselves. I don't have time to deal with this right now but they were not give any approval by EPA to stop work.

Thanks

Rafael,

During that time the property was being evaluated for sale and we were told not to do any work.

Since no work was performed we didn't compile a report.

David Dickey will reply to your email about the 95th UCL in about an hour, he's out of his office at the minute.

Stephen, I have no comment on the March 2009 Monthly Report.

I have looked and I don't think I have received the January and February 2009 monthly reports. Have they been submitted?
